Criteria and weighting	Level	Comments:
<b>Knowledge and Understanding weighted 25%,</b> Are the major points identified? Are the details presented clearly?	<b>Very Good</b>	Very good knowledge and understanding of the targeted research and content discussed in the presentation. Whilst theory is drawn through try to do this more consistently through the whole of the summative for future
<b>Criticality weighted at 25%,</b> Is there a critical discussion/analysis of your methodology/design?	<b>Very Good</b>	Very good discussion around the key concepts of research with strengths and limitations discussed and examined. For future try to draw through more continuous and consistent theoretical concepts looking at strengths and limitations of the discussion throughout
<b>Structure and Presentation weighted at 10%:</b> Is the presentation well organised?	<b>Excellent</b>	The power point presentation is completed to an excellent standard, with an effective use of visuals and textual information within the power point.
<b>Presentation and Communication Skills weighted at 30%:</b> Is the presentation clearly introduced and concluded? Is the presentation well-paced and timed? Is the information presented clearly and concisely? There is some hesitancy in the content, but for the most part the content and context are fluid and clear
